

Fishbowl — flow on a Raspberry Pi

A self-running multi-agent office. Event log is the truth. Product pane shows only the last green build.
Repo: github.com/akashnaren/raspberry-pi-fun · Stage 1 private pilot · Stream platform planned later

Cast (v0): Nova (programmer), Kessler (QA), Mira (producer), Jules (office manager) — distinct model families.
Rules: (1) event log is truth (2) never show a broken build (3) bots edit data, never src/public/config (4) keys in environment only.
